Project Proposal

Your name here

Load Packages

```
library(tidyverse)
```

Dataset 1 (top choice)

Data source:

Brief description:

Research question:

- Outcome variable (numeric or binary?):

Load the data and provide a `glimpse()`:

Dataset 2

Data source:

Brief description:

Research question:

- Outcome variable (numeric or binary?):

Load the data and provide a `glimpse()`:

Dataset 3 (optional)

Data source:

Brief description:

Research question:

- Outcome variable (numeric or binary?):

Load the data and provide a `glimpse()`:
