Teaching team

Instructor

Kat Husar (she/her) - Hi everyone! I am a second year PhD student at the Department of Statistical Science at Duke University working with professors Alex Volfovsky and Fan Li. My research interest lies in causal inference.

Prior to starting at Duke, I completed my undergraduate degree at The Ohio State University majoring in mathematics and data analytics.

During my free time, I like to go on walks, hang out with my friends, bake, and spend time with my cat.

Office hours	Location
Wed & Fri: 3:30 - 4:30 pm	Old Chem 203B

Teaching assistant

John Gillen - Hello! I'm a second-year student in the Master of Statistical Science program here at Duke. I completed undergraduate degrees in statistics and mathematics at UC Riverside, and am hoping to pursue a PhD in statistics after completing my Master's degree.

Outside of school, I enjoy playing tennis, running, and reading.
